

Churchyard Burials Project

- * Provide digital, world-wide access to churchyard burial information. This involves creating a website or webpages, with an interactive churchyard map, digitising and cross referencing memorial inscriptions (recorded in 1988), burial records (held by London Metropolitan Archives) with photographs of each headstone or tomb.
- * Research burial records to find interesting people/stories.
- * Designing content for enamel interpretation boards in the churchyard, probably Cartwright memorial and other listed monuments
- * Apply for listing of Thomas Reader White obelisk memorial

The Smith family tomb, Listed Grade II

Who is already involved?

Ewen Fletcher, Penny Igoe, Francis Grew

Who is needed & what type of skills?

People to help with researching, typing, photography

Costs to be estimated

GIS help/training

Geophys Survey

Website setup (min. 5yrs)

Barnet Mencap Partnership

- * Mencap will use the new planting beds along the sunny, south front of the church to provide horticultural training to their young adult clients, children and adult groups will use the space for outdoor meetings
- * St Mary's and Mencap will work together to produce easy-read and recorded guides to the church. These might include church customs, architecture and music.

Who is already involved?

Barbara Crosbie, Ray Booth & Joby Clifford of Mencap

Who is needed & what type of skills?

People with educational, music, graphic design, gardening skills

Costs to be estimated

Graphic design

Recording

Historic Records Publications

- * Publicise the church's evolution from 13th century, producing a booklet and some online articles incorporating previous history publications with recent North Wall findings by architectural archaeologist, archive plans, current and archive photos.

- * Produce booklet with WWI & WWII lifestories, already researched by Margaret

1793 Pencil and watercolour of St Mary's by JMW Turner

Who is already involved?

Philip Davison, Margaret Posten, Joel Rickett

Who is needed & what type of skills?

History enthusiasts and writers, researchers, photographer, graphic designer

Costs to be estimated

graphic design

printing booklets

webpage design

Footpath Route Planning

- * A circular route (approx 5 miles) has been designed based on the historic footpaths which led people to St Mary's. The route will link the church with Dollis Valley Greenwalk & Capital Ring. LB Barnet will help with safe route planning, road crossing improvements and publicity as part of their Healthy Heritage Walks and Active Travel Plans, to get residents out of their cars and to get walking!

A school walking bus

Who is already involved?

Nick Upton, Helen Bevan

Who is needed & what type of skills?

Walkers (and dogs) to test the route & report back,
people to contact schools about Active Travel Plans

Costs to be estimated
